## The Possible Benefits of Organic Glandulars, Dietary Supplements

- May support metabolism and physiological function of specific glands\*
- Obtained from safe, inspected sources and processed to retain maximum activity

---

## Description

Glandular tissues are rich sources of nutritional factors that may support the metabolism and physiological function of specific glands.\* When prepared with sufficient technical sophistication and sensitivity to their delicate nature, they can retain a significant portion of their biologically active components, including enzymes, soluble proteins, natural lipid factors, vitamins, minerals and hormone precursors. Our glandulars are lyophilized (freeze-dried): the glands are quickly frozen at the time of collection and subjected to a high vacuum, which removes moisture by direct vaporization from the frozen state. This meticulous process of collection and conversion of the glandular material to dry powder minimizes degradation and maintains the naturally-occurring levels of active components. The fats are not removed in the process, as they contain important soluble vitamins, minerals and cofactors, and their removal would degrade the material. We obtain our glandular products from government inspected, range-grazed animals, raised in New Zealand without the use of pesticides, hormones or antibiotics. They are totally free from BSE and a number of other diseases that do not occur in New Zealand. All glandulars are subject to in-process as well as finished product testing, including microbial contamination tests to assure acceptable total bacteria counts and absence of pathogenic bacteria. Our glandulars are highly potent and are well tolerated.

**Adrenal Organic Glandular** supports the entire adrenal gland, both medulla and cortex portions.\* The adrenal cortex is the outer portion of the gland and is involved in the secretion of a variety of adrenal hormones, mainly cortisol. The medulla is the inner portion of the gland and is involved in the synthesis and secretion of epinephrine (adrenaline) and norepinephrine. **Adrenal Cortex Organic Glandular** supports the cortex portion of the adrenal gland.\* **Hypothalamus Glandular** provides nutritional support for the hypothalamus, considered to be the control headquarters of the limbic system.\* The hypothalamus controls most of the vegetative and endocrine functions of the body, including regulation of body temperature and body water, and secretion of growth hormone, thyroid hormone and sex hormone.\* **Immuno-Gland Plex Organic Glandular** is a mixture of glandulars for broad-spectrum nutritional support.\* **Liver Organic Glandular** supports the liver, a major organ of detoxification, fat digestion and absorption.\* **Pancreas Organic Glandular** provides enzymes and other digestive factors.\* Individuals allergic to molds may find these to be a superior digestive enzyme over plant-based digestive enzymes. **TG 100 Organic Glandular** supports the thyroid gland and the glands associated with thyroid function.\* **Thymus Organic Glandular** supports the function of the thymus gland, the master gland of the immune system.\*

### **Adrenal Organic Glandular, Item # 70460, 75 capsules**

Each capsule contains:	Adrenal Tissue (Bovine)	300 mg
Other ingredients:	Cellulose, silicon dioxide, stearic acid.	
Suggested Use:	As a dietary supplement, 1 capsule daily with a meal, or as directed by a healthcare practitioner.	

### **Adrenal Cortex Organic Glandular, Item # 70530, 100 capsules**

Each capsule contains:	Adrenal Cortex Tissue (Bovine)	250 mg
Other ingredients:	Cellulose, magnesium stearate.	
Suggested Use:	As a dietary supplement, 1 capsule daily with a meal, or as directed by a healthcare practitioner.	

\*THESE STATEMENTS HAVE NOT BEEN EVALUATED BY THE FOOD AND DRUG ADMINISTRATION. THIS PRODUCT IS NOT INTENDED TO DIAGNOSE, TREAT, CURE, OR PREVENT ANY DISEASE.

**Hypothalamus Glandular, Item # 70810, 100 capsules**

Each capsule contains: Hypothalamus Tissue (Porcine) 500 mg  
Other ingredients: Cellulose, magnesium stearate.  
Suggested Use: As a dietary supplement, 1 or 2 capsules two or three times daily with meals, or as directed by a healthcare practitioner.

**Immuno-Gland Plex Organic Glandular, Item # 70450, 60 capsules**

Each capsule contains: Adrenal Tissue (Bovine) 125 mg  
Pancreas Tissue (Porcine) 125 mg  
Thymus Tissue (Ovine) 125 mg  
Spleen Tissue (Bovine) 125 mg  
Suggested Use: As a dietary supplement, 1 capsule two or three times daily with meals, or as directed by a healthcare practitioner.

**Liver Organic Glandular, Item # 70470, 125 capsules**

Each capsule contains: Liver Tissue (Bovine) 500 mg  
Other ingredients: Silicon dioxide, magnesium stearate.  
Suggested Use: As a dietary supplement, 1 or 2 capsules two or three times daily with meals, or as directed by a healthcare practitioner.

**Pancreas Organic Glandular, from pork, Item # 71640, 60 capsules; Item # 71650, 720 capsules**

**Pancreas Organic Glandular, from beef, Item # 71620, 90 capsules**

**Pancreas Organic Glandular, from lamb, Item # 71630, 90 capsules**

Each capsule contains: Pancreas gland (from beef, lamb or pork) 425 mg  
Other ingredients: Cellulose, magnesium stearate.  
Suggested use: As a dietary supplement, 1 capsule three times daily, taken ½ to 1 hour before each meal, or as directed by a healthcare practitioner.

**TG 100 Organic Glandular, Item # 71800, 100 capsules**

Each capsule contains: Vitamin C (Ascorbic Acid) 120 mg  
Adrenal Tissue (Bovine) 5 mg  
Pancreas Tissue (Porcine) 5 mg  
Thymus Tissue (Ovine) 5 mg  
Spleen Tissue (Bovine) 5 mg  
Thyroid Tissue (Bovine) 40 mg  
Other ingredients: Dicalcium phosphate, cellulose, magnesium silicate, magnesium stearate.  
Suggested Use: As a dietary supplement, 1 to 3 capsules daily with meals, or as directed by a healthcare practitioner.

**Thymus Organic Glandular, Item # 71610, 75 capsules**

Each capsule contains: Thymus Tissue (Ovine) 500 mg  
Other ingredients: Cellulose, magnesium stearate.  
Suggested Use: As a dietary supplement, 1 or 2 capsules two or three times daily with meals, or as directed by a healthcare practitioner.
